OCEANWORKS INTERNATIONAL STAFF IN ATTENDANCE AT ONC PRESENTATION AT VANCOUVER AQUARIUM

Vancouver, BC. – October 16, 2015 – Quite a few members of the of the OceanWorks International team were in attendance at Vancouver Aquarium October 7th for a very informative presentation by Dr. Tom Kwasnitschka, a visiting scholar at Ocean Networks Canada and who received his PhD in Geology from the Christian-Albrechts-Universität zu Kiel, Germany.

Dr. Kwasnitschka presentation; “A Walk on the Wild Side: Exploring the Ocean Floor with Digital Technology” touched on robotic exploration of deep ocean environments, volcanology of seamounts, very deep explosive volcanism ... all areas of focus in his research.

OceanWorks Engineers’ Stephen Czerniej, Paul Martyniak, Brian Anderson, Colin Vincent, Project Manager Menno Huizinga, and Senior Account Manager Phil Reynolds were appreciative of the opportunity to gain a deeper understanding of how state of the art digital scanning methods combined with today’s video gaming technology is allowing us to experience the deep ocean like never before.

OceanWorks International is a subsea solution engineering company, providing over 20 years of service to the Scientific & Environmental, Oil & Gas, and Military markets. Offering a full range of subsea system engineering, design and analysis, fabrication, testing, and project management services, OceanWorks has been at the cutting edge of subsea engineering design, deep submergence and diving technology, operations, and support and we look forward to providing subsea engineering solutions to our customers for years to come.
