## **Members of ASME visit OceanWorks International 's Burnaby Facility**

OceanWorks International welcomed members of The American Society of Mechanical Engineers (ASME) on Wednesday November 4<sup>th</sup> for an evening at our Burnaby based facility.

The site tour, organized by ASME member Kristian Plakaris and members of the OceanWorks Engineering team, acquainted the ASME visitor with the engineering, testing, and manufacturing capabilities of OceanWorks.

OceanWorks engineering staff members Samuel Melamed, Paul Martyniak, and Tomiko Johnson, along with Project Manager Menno Huizinga, and Production Manager Daniel Gheorgheos...with the assistance of Barry McBride, were pleased to provide our visitors with a tour of our manufacturing area, an information session in our engineering department, and a corporate presentation providing a synopsis of OceanWorks International with an overview of some of our major projects.

OceanWorks International is a subsea solution engineering company, providing over 20 years of service to the Oil & Gas, Military, and Scientific & Environmental markets. Offering a full range of subsea system engineering, design and analysis, fabrication, testing, and project management services, OceanWorks has been at the cutting edge of subsea engineering design, deep submergence and diving technology, operations, and support and we look forward to providing subsea engineering solutions to our customers for years to come. For more information regarding OceanWorks International's products and services visit our website, [www.oceanworks.com](http://www.oceanworks.com) , or contact us at [marketing@oceanworks.com](mailto:marketing@oceanworks.com)
