OceanWorks appoints Ernst Fihn as General Manager

Houston, Texas – **OceanWorks International, Inc.** has appointed Mr. Ernst Fihn as General Manager of its Houston facility. As such he will lead the company's rapidly expanding U.S. operations which are focused on the design, fabrication and servicing of subsea tooling and field development hardware.

Mr. Fihn comes to the company with over 20 years experience in the subsea industry, including recent experience on the BP Atlantis Project working on production and IWOCS control systems for Technip USA. He also served in various engineering and project management positions at Perry Slingsby Systems where he worked on ROV, cable burial and maintenance, and subsea plow systems. In addition, working for Tetra Tech Inc., Mr. Fihn served as Program Director for the Port of Miami's infrastructure redevelopment program.

Mr. Fihn takes over as GM-Houston from Mr. John Jacobson, who will continue as the company's Executive Vice President. As such, Mr. Jacobson will be responsible for corporate business development, marketing and sales, and commercial operations. Mr. Jacobson has over 30 years experience in the subsea industry, including service in various senior management positions at OceanWorks International, Stolt Offshore, and Perry Slingsby Systems, as well as service in the U.S. Navy submarine force.

OceanWorks is an internationally recognized subsea technology company specializing in the design and manufacture of manned / unmanned subsea systems and specialized equipment for military, oil and gas, scientific, and other marine markets. Offering a full range of subsea system engineering, design and analysis, fabrication, testing, and project management services, OceanWorks has been at the cutting edge of deep submergence and diving technology, operations, and support for over 20 years.
