OceanWorks Expands Houston Staff and Facilities

Houston, Texas – **OceanWorks International, Inc.** is pleased to announce the appointment of three key subsea industry-experienced managers in conjunction with its recent facility expansion that has doubled its production capacity.

Mr. Javier Gomez has been appointed as Sales Manager. Mr. Gomez comes to OceanWorks with nine years of industry experience, including service as Project Manager and Sales Engineer for Dril-Quip, Wood Group, and Vetco Gray working with subsea drilling equipment, drilling and production risers, and wellhead equipment.

Mr. Byron Solomon has been appointed as Engineering / Tooling Manager. Mr. Solomon has ten years of industry experience in various engineering and project management roles involving subsea connectors and manifolds, metering systems and gas turbines, including service at Cooper Cameron, Emerson, and GE Power Systems.

Ms. Karen North has been appointed as Business Development Manager. Ms. North has six years of subsea industry experience in various sales, customer service, and project management roles at Perry Slingsby Systems, and another ten years as a sales manager in the financial services industry.

OceanWorks' expanded Houston facility now includes 35,000 sq. ft. of shop facilities, 8,000 sq. ft. of office, and 15,000 sq. ft. of paved yard space, dedicated to subsea equipment fabrication, assembly, and testing operations. This expansion further enhances OceanWorks' commitment to offer its offshore oil and gas clients leading edge services in the design, fabrication and servicing of subsea tooling and field development hardware.

OceanWorks is an internationally recognized subsea technology company specializing in the design and manufacture of manned / unmanned subsea systems and specialized equipment for military, oil and gas, scientific, and other marine markets. Offering a full range of subsea system engineering, design and analysis, fabrication, testing, and project management services, OceanWorks has been at the cutting edge of deep submergence and diving technology, operations, and support for over 20 years.
